

August 2009 newsletter

The greatest honor we can have is to be hosting the presence of God . And this is exactly what we are aiming for at the TOP. We dream to be a place where God will enjoy resting and where people will be drawn to His presence. And what better can we do than dream with GOD

Worship has always been the primary mandate at the TOP because we believe that God sits in the midst of the praises of His people . His throne is being established and his government will increase .

But the love of God should never stay in between 4 walls so we went out to share God's love and good news wherever we could.

We celebrated with people

prayed with people

And hugged people

TOP's second anniversary

For the TOP's second anniversary, we also celebrated the baptism of several people

Testimonies of God's faithfulness and a commitment to make the LORD JESUS first in many lives were proclaimed

And to top all this , people present at the location we were in were curious enough to ask questions and even a muslim guy ended up by giving his life to Christ.

What a marvelous GOD we have who touches hearts and draws people even in the most unexpected places.

We also had great food with chef Patrick

TOP's retreat

At the 3 day retreat on the 14th 15th and 16th of august, God's presence was filling the air. The food, the housing, or any of the comfort were not an issue , because when God's presence fills the place, everything else fades away. Many people experienced for the first time, freedom in the Lord, the baptism of the Holy Spirit, being slain under the power and the sense of being lit again for the works of the kingdom. God was indeed glorified!

May the Lord continue building His kingdom in and through us . Be blessed
